Hello,

testa bags started as gifts for family and friends. I designed a unique bag for each person so that everyone would have a "one of a kind original." That's what testa bags are all about. Now I would like to create one especially for you.

My bags are designed and handcrafted using a variety of vintage clothing, colorful fabrics, and trimmings. This catalogue displays three bag styles. Presented here are examples from my fall/winter line, which utilizes lots of corduroy and tapestry fabrics. The ribbon collection is a big hit! And they can be made in any bag style and color you choose. When you order your testa bag, please tell me about your style and color interest. When buying for a friend, just describe what style you see in her. Either way, once you select a bag style, trust me to create a perfect match for you.
