

Denim & Lace

Recycled women's and men's jeans have been transformed into your next multi-season bag. Donned with antique lace trim from the early 1900s through 1950s, this collection adds a dainty, feminine touch to a casual and cool bag. Lined with bright primary colors, this collection takes you from fall right to summer! A "solid" approach to dressing.

Timeless

Love the feel of satin sheets and velvet throws? testa took vintage satin coverlets and a variety of velvets (from dresses to quilts), to create a bold and unique look. With alternating bold stripes in interesting color combinations, this collection is luxurious from morning to evening.

This Season's Funky Finds

Back after popular demand! Imported German house decorations, such as table runners and mats have been reconstructed into what could be your most exciting winter accessory. These embossed velvet pieces come in rich, neutral hues often adorned with lace trim or fringe giving the bags an additional funky touch. Vintage imports are limited and unique, so act quickly!

NEW

The Barrel Bag

This full body bag is a "good time", new look for testa. With two semi-circular sides and a zipper closure the Barrel bag slouches and relaxes just right and fits everything!

NEW

The Clutch

Looking for the perfect bag for a night out? This petite, sleek bag is long and lean with zipper access, so you can keep your evening essentials hidden. Designed to "clutch" or with a single wrist strap, you're sure to look complete with this bag.

Remember, the Weekender is available in two sizes and perfect for the woman who carries everything or just needs something for a night or two away. And the Diaper Bag, often used by non-moms as a gym bag, knitting bag, beach bag, or whatever... has a "wipeable" lining!

Weather can be so unpredictable. And your wardrobe and accessories, particularly your bag, have to adjust. So for when warmer temperatures linger and cool temperatures arrive abruptly or stay forever, I have created bags for Mother Nature's every whim. Bags that will make you feel happy, trendy and comfortable... regardless of the weather!

Touching on several inspirations, this season is a conglomeration of "all things practical" for winter.

For the first time, testa introduces a collection in a basically solid hue. It's called Denim and Lace and it caters to those wardrobes that are already colorful and need something a bit more subtle.

The Timeless collection touches the "regal woman" in all of us who love things magnificent, opulent and lush. These bags are rich and luxurious enough for the opera, yet cool enough to wear everyday!

Finally, this season's Funky Finds brings in the wonders of international history using an assortment of imported fabrics for almost any time and place.

It is amazing to discover the array of fabrics and textiles that contribute to the "vintage" era. I am forever inspired and intrigued by the multitude of ways these fabrics contribute to the everyday necessity of handbags. My love of vintage fabrics and fervent desire to be unique continue to make testa bags one of a kind. Remember, handcraft each and every bag, so my personal, creative touch goes into each bag, whether you buy it at a boutique, on-line, or as a custom order.

testa has contributed two new bag styles to its growing list of popular totes: the Barrel Bag and the Clutch (our replacement for the Envelope Bag).

testa's look is constantly changing and evolving while remaining funky and unique.
